

## ISO Standards Handbook:

# Paints and varnishes

Volume 4: Preparation and protection of steel substrates

2002, Ed. 3, 722 p., ISBN 92-67-10357-1

## Contents

- ISO 8501-1:1988** Preparation of steel substrates before application of paints and related products — Visual assessment of surface cleanliness — Part 1: Rust grades and preparation grades of uncoated steel substrates and of steel substrates after overall removal of previous coatings
- ISO 8501-1:1988 / Suppl:1994** Representative photographic examples of the change of appearance imparted to steel when blast-cleaned with different abrasives
- ISO 8501-2:1994** Preparation of steel substrates before application of paints and related products — Visual assessment of surface cleanliness — Part 2: Preparation grades of previously coated steel substrates after localized removal of previous coatings
- ISO/TR 8502-1:1991** Preparation of steel substrates before application of paints and related products — Tests for the assessment of surface cleanliness — Part 1: Field test for soluble iron corrosion products
- ISO 8502-2:1992** Preparation of steel substrates before application of paints and related products — Tests for the assessment of surface cleanliness — Part 2: Laboratory determination of chloride on cleaned surfaces
- ISO 8502-3:1992** Preparation of steel substrates before application of paints and related products — Tests for the assessment of surface cleanliness — Part 3: Assessment of dust on steel surfaces prepared for painting (pressure-sensitive tape method)
- ISO 8502-4:1993** Preparation of steel substrates before application of paint and related products — Tests for the assessment of surface cleanliness — Part 4: Guidance on the estimation of the probability of condensation prior to paint application
- ISO 8502-5:1998** Preparation of steel substrates before application of paints and related products — Tests for the assessment of surface cleanliness — Part 5: Measurement of chloride on steel surfaces prepared for painting (ion detection tube method)
- ISO 8502-6:1995** Preparation of steel substrates before application of paints and related products — Tests for the assessment of surface cleanliness — Part 6: Extraction of soluble contaminants for analysis — The Bresle method

- ISO 8502-8:2001** Preparation of steel substrates before application of paints and related products — Tests for the assessment of surface cleanliness — Part 8: Field method for the refractometric determination of moisture
- ISO 8502-9:1998** Preparation of steel substrates before application of paints and related products — Tests for the assessment of surface cleanliness — Part 9: Field method for the conductometric determination of water-soluble salts
- ISO 8502-10:1999** Preparation of steel substrates before application of paints and related products — Tests for the assessment of surface cleanliness — Part 10: Field method for the titrimetric determination of water-soluble chloride
- ISO 8503-1:1988** Preparation of steel substrates before application of paints and related products — Surface roughness characteristics of blast-cleaned steel substrates — Part 1: Specifications and definitions for ISO surface profile comparators for the assessment of abrasive blast-cleaned surfaces
- ISO 8503-2:1988** Preparation of steel substrates before application of paints and related products — Surface roughness characteristics of blast-cleaned steel substrates — Part 2: Method for the grading of surface profile of abrasive blast-cleaned steel — Comparator procedure
- ISO 8503-3:1988** Preparation of steel substrates before application of paints and related products — Surface roughness characteristics of blast-cleaned steel substrates — Part 3: Method for the calibration of ISO surface profile comparators and for the determination of surface profile — Focusing microscope procedure
- ISO 8503-4:1988** Preparation of steel substrates before application of paints and related products — Surface roughness characteristics of blast-cleaned steel substrates — Part 4: Method for the calibration of ISO surface profile comparators and for the determination of surface profile — Stylus instrument procedure
- ISO 8504-1:2000** Preparation of steel substrates before application of paints and related products — Surface preparation methods — Part 1: General principles
- ISO 8504-2:2000** Preparation of steel substrates before application of paints and related products — Surface preparation methods — Part 2: Abrasive blast-cleaning
- ISO 8504-3:1993** Preparation of steel substrates before application of paints and related products — Surface preparation methods — Part 3: Hand- and power-tool cleaning
- ISO 11124-1:1993** Preparation of steel substrates before application of paints and related products — Specifications for metallic blast-cleaning abrasives — Part 1: General introduction and classification
- ISO 11124-2:1993** Preparation of steel substrates before application of paints and related products — Specifications for metallic blast-cleaning abrasives — Part 2: Chilled-iron grit
- ISO 11124-3:1993** Preparation of steel substrates before application of paints and related products — Specifications for metallic blast-cleaning abrasives — Part 3: High-carbon cast-steel shot and grit
- ISO 11124-4:1993** Preparation of steel substrates before application of paints and related products — Specifications for metallic blast-cleaning abrasives — Part 4: Low-carbon cast-steel shot

- ISO 11125-1:1993** Preparation of steel substrates before application of paints and related products — Test methods for metallic blast-cleaning abrasives — Part 1: Sampling
- ISO 11125-2:1993** Preparation of steel substrates before application of paints and related products — Test methods for metallic blast-cleaning abrasives — Part 2: Determination of particle size distribution
- ISO 11125-3:1993** Preparation of steel substrates before application of paints and related products — Test methods for metallic blast-cleaning abrasives — Part 3: Determination of hardness
- ISO 11125-4:1993** Preparation of steel substrates before application of paints and related products — Test methods for metallic blast-cleaning abrasives — Part 4: Determination of apparent density
- ISO 11125-5:1993** Preparation of steel substrates before application of paints and related products — Test methods for metallic blast-cleaning abrasives — Part 5: Determination of percentage defective particles and of microstructure
- ISO 11125-6:1993** Preparation of steel substrates before application of paints and related products — Test methods for metallic blast-cleaning abrasives — Part 6 Determination of foreign matter
- ISO 11125-7:1993** Preparation of steel substrates before application of paints and related products — Test methods for metallic blast-cleaning abrasives — Part 7: Determination of moisture
- ISO 11126-1:1993** Preparation of steel substrates before application of paints and related products — Specifications for non-metallic blast-cleaning abrasives — Part 1: General introduction and classification
- ISO 11126-1:1993 / Cor. 1:1997** Technical Corrigendum 1:1997 to ISO 11126-1:1993
- ISO 11126-1:1993 / Cor. 2:1997** Technical Corrigendum 2:1997 to ISO 11126-1:1993
- ISO 11126-3:1993** Preparation of steel substrates before application of paints and related products — Specifications for non-metallic blast-cleaning abrasives — Part 3: Copper refinery slag
- ISO 11126-4:1993** Preparation of steel substrates before application of paints and related products — Specifications for non-metallic blast-cleaning abrasives — Part 4: Coal furnace slag
- ISO 11126-5:1993** Preparation of steel substrates before application of paints and related products — Specifications for non-metallic blast-cleaning abrasives — Part 5: Nickel refinery slag
- ISO 11126-6:1993** Preparation of steel substrates before application of paints and related products — Specifications for non-metallic blast-cleaning abrasives — Part 6: Iron furnace slag
- ISO 11126-7:1995** Preparation of steel substrates before application of paints and related products — Specifications for non-metallic blast-cleaning abrasives — Part 7: Fused aluminium oxide
- ISO 11126-7:1995 / Cor. 1:1999** Technical Corrigendum 1:1999 to ISO 11126-7:1995

- ISO 11126-8:1993** Preparation of steel substrates before application of paints and related products — Specifications for non-metallic blast-cleaning abrasives — Part 8: Olivine sand
- ISO 11126-9:1999** Preparation of steel substrates before application of paints and related products — Specifications for non-metallic blast-cleaning abrasives — Part 9: Staurolite
- ISO 11126-10:2000** Preparation of steel substrates before application of paints and related products — Specifications for non-metallic blast-cleaning abrasives — Part 10: Almandite garnet
- ISO 11127-1:1993** Preparation of steel substrates before application of paints and related products — Test methods for non-metallic blast-cleaning abrasives — Part 1: Sampling
- ISO 11127-2:1993** Preparation of steel substrates before application of paints and related products — Test methods for non-metallic blast-cleaning abrasives — Part 2: Determination of particle size distribution
- ISO 11127-3:1993** Preparation of steel substrates before application of paints and related products — Test methods for non-metallic blast-cleaning abrasives — Part 3: Determination of apparent density
- ISO 11127-4:1993** Preparation of steel substrates before application of paints and related products — Test methods for non-metallic blast-cleaning abrasives — Part 4: Assessment of hardness by a glass slide test
- ISO 11127-5:1993** Preparation of steel substrates before application of paints and related products — Test methods for non-metallic blast-cleaning abrasives — Part 5: Determination of moisture
- ISO 11127-6:1993** Preparation of steel substrates before application of paints and related products — Test methods for non-metallic blast-cleaning abrasives — Part 6: Determination of water-soluble contaminants by conductivity measurement
- ISO 11127-7:1993** Preparation of steel substrates before application of paints and related products — Test methods for non-metallic blast-cleaning abrasives — Part 7: Determination of water-soluble chlorides
- ISO 12944-1:1998** Paints and varnishes — Corrosion protection of steel structures by protective paint systems — Part 1: General introduction
- ISO 12944-2:1998** Paints and varnishes — Corrosion protection of steel structures by protective paint systems — Part 2: Classification of environments
- ISO 12944-3:1998** Paints and varnishes — Corrosion protection of steel structures by protective paint systems — Part 3: Design considerations
- ISO 12944-4:1998** Paints and varnishes — Corrosion protection of steel structures by protective paint systems — Part 4: Types of surface and surface preparation
- ISO 12944-5:1998** Paints and varnishes — Corrosion protection of steel structures by protective paint systems — Part 5: Protective paint systems
- ISO 12944-6:1998** Paints and varnishes — Corrosion protection of steel structures by protective paint systems — Part 6: Laboratory performance test methods
- ISO 12944-7:1998** Paints and varnishes — Corrosion protection of steel structures by protective paint systems — Part 7: Execution and supervision of paint work

- ISO 12944-8:1998** Paints and varnishes — Corrosion protection of steel structures by protective paint systems — Part 8: Development of specifications for new work and maintenance
- ISO/TR 15235:2001** Preparation of steel substrates before application of paints and related products — Collected information on the effect of levels of water-soluble salt contamination
