Food safety management systems

Access all standards in just one click
www.iso.org/iso/obp-foodsafety

This online collection helps companies working in the food chain to implement a sustainable food safety management system. Included in the portfolio is ISO 22000, which maps out the steps you need to take to successfully identify and control food safety hazards and ensure that food is safe.

What kind of industries use the collection?
- Agro-Industry, food Industry, services and regulators

Which sectors are covered?
- Agriculture, fishing, cattle farming, manufacturing, retail, food supply services, agricultural machinery, labelling, packaging and storage

What are the principal benefits?
- Heightens the safety and quality of food products for the global consumer
- Boosts international exports
- Disseminates best practice and health management procedures within the food industry
- Helps phase in and implement state-of-the-art food technologies

This collection is available on ISO’s Online Browsing Platform (OBP)
www.iso.org/obp

The OBP is a one-stop shop where you will find the entire collection of ISO International Standards as well as related material such as international symbols, terms and definitions, and country codes.
