Construction procurement

Access all standards in just one click
www.iso.org/iso/obp-construction

This new collection for construction procurement contains all eight parts of ISO 10845, from documentation and tendering conditions to joint ventures and participation of local enterprise and labour. It’ll help you create, manage and fulfil your construction contracts, stand out from competitors and convey believability, reliability and longevity.

What industry will use the collection?

• Construction

Which sectors are covered?

• Public and private sectors, construction of buildings and utility projects, as well as civil engineering.

How you can benefit

• Access in one place all parts of the ISO standards for construction procurement
• Provides the various steps from the project’s creation and the products to be procured, to soliciting and evaluating tender offers.
• Find all the essential information for confirming and compliance with any construction related requirements.

This collection is available on ISO’s Online Browsing Platform (OBP)
www.iso.org/obp

The OBP is a one-stop shop where you will find the entire collection of ISO International Standards as well as related material such as international symbols, terms and definitions, and country codes.

Subscribe now
