STANDARDS DEVELOPMENT WORK PROGRAMME APRIL 2021 – SEPTEMBER 2021

INTRODUCTION

The Bureau of Standards Jamaica (BSJ) was established in July 1969, under the Standards Act of 1969, as Jamaica's National Standards Body; in order to promote and encourage the maintenance of standardization in relation to commodities, processes and practices. The BSJ is an agency under the Ministry of Industry, Investment & Commerce (MIIC). The BSJ is responsible for establishing a recognized National Quality Infrastructure and achieves this through a network of national, regional and international partners from industry, civil society and the public sector. The BSJ is a member of a number of international and regional organizations such as the International Organization for Standardization (ISO), the International Electrotechnical Commission (IEC), the Pan-American Standards Commission (COPANT) and the CARICOM Regional Organization for Standards and Quality (CROSQ). The BSJ functions as Jamaica's National Enquiry Point for the World Trade Organization (WTO) Agreement on Technical Barriers to Trade (TBT) and the Contact Point for the Codex Alimentarius Commission.

The organization has implemented an integrated approach to standardization offering a wide range of services in the areas of standards development, testing, certification of products and quality systems and training. The collaborative efforts of the BSJ and its partners have resulted in the use of standards to help to advance the social and economic wellbeing and safeguard health and safety; while activities in the areas of metrology, standardization, testing, and conformity assessment programmes support the strengthening of the National Quality Infrastructure (NQI).

Standards are developed by Technical Committees comprised of experts in specific fields/sectors as well as representation from government, consumer interests and sector support agencies. Committees operate on the principle of consensus and the public is given the opportunity to examine and comment on all drafts before they are published as National Standards. The BSJ facilitates the adoption or the modified adoption of relevant regional and international standards thereby honouring its obligations under the WTO TBT Agreement. International standards are referenced in the development of national standards where applicable.

PURPOSE OF THE WORK PROGRAMME

The BSJ's Standards Development Work Programme is published in order to meet the requirements specified in Annex 3 Code of Good Practice for the Preparation, Adoption and Application of Standards prepared by the World Trade Organization (WTO) in the Agreement on Technical Barriers to Trade (TBT). It was first published in April 1996 and is published twice each year, in April and October.

The Work Programme contains a list and status of draft standards which are being developed/adopted/revised; classification of the drafts according to the International Classification for Standards (ICS); international standards considered in the development of the draft standards; and a list of standards published since the last publication of the Work Programme. A complete list of all standards published by the BSJ is contained in the Catalogue of Jamaican Standards.

STANDARDS DEVELOPMENT WORK PROGRAMME APRIL 2021 – SEPTEMBER 2021

STAGE CODES FOR THE DEVELOPMENT OF STANDARDS

The following coding system has been developed to apply to the various stages of development of a Jamaican Standard. The coding system is based on the International Harmonized Stage Code System for the Development of Standards developed by the International Organization for Standardization (ISO).

STAGE	DESCRIPTION
PROPOSAL STAGE (10)	<p>The request for development/review of a standard (New Work Item) is received by the Standards Development Branch. An evaluation of the subject of the work item and a review of existing national, regional and international standards is undertaken in order to determine if the request is pertinent. The New Work Item is prioritized based on the results of the evaluation.</p> <p>In the case of Technical Regulations, a Regulatory Impact Assessment is conducted.</p>
PREPARATORY STAGE (20)	<p>During this stage, a new Technical Committee is formed or the work item is placed on the work plan of an existing Technical Committee (TC). The Committee undertakes a study of the subject matter of the standard or initiates the revision of the standard, establishes a project schedule / work plan and a Working Draft (WD) are developed. Once consensus has been reached on the contents of the WD, the draft is approved by committee members as a Committee Draft (CD).</p>
COMMITTEE STAGE (30)	<p>At this stage, general editing and proofreading is done. Once edited, the draft is registered as a Draft Jamaican Standard (DJS).</p>
ENQUIRY STAGE (40)	<p>The DJS is made available to the public and sent directly to a number of organizations and parties concerned with the subject matter with the aim of gathering and responding to the concerns expressed by the consulted parties. If the standard is intended to be mandatory, a notification is sent to the World Trade Organization (WTO). Comments received are reviewed by the TC and the Draft Standard revised if necessary. Once consensus has been received after the public comments stage, the Draft Standard is registered as a Final Draft Jamaican Standard (FDJS).</p>
APPROVAL STAGE (50)	<p>The FDJS is edited and submitted to the Standards Council for approval followed by the portfolio government Ministry for approval; other relevant Ministries are notified if applicable.</p>
PUBLICATION STAGE (60)	<p>Once approved, the Final Draft Standard is published as a Jamaican Standard. The publication stage includes printing and gazetting in the Jamaica Gazette and promulgation.</p>
REVIEW STAGE (90)	<p>At this stage a systematic, periodic review of the standard is performed in an effort to keep it current and relevant. Following the systematic review, the standard is revised, withdrawn or confirmed. Standards are reviewed every five (5) years routinely. The review may be done earlier in response to specific national issues.</p>

STANDARDS DEVELOPMENT WORK PROGRAMME APRIL 2021 – SEPTEMBER 2021

STAGE CODES FOR THE DEVELOPMENT OF STANDARDS

STAGE	SUBSTAGE						
				90 Decision Sub-stages			
	00 Registration	20 Start of main action	60 Completion of main action	92 Repeat an earlier phase	93 Repeat current phase	98 Abandon	99 Proceed
10 Proposal stage <i>2 months</i> <i>(variance of 1 month)</i>	10.00 Proposal for development/revision/adoption of a standard (New Work Item)	10.20 Proposal for new project under review (if Technical Regulation, Regulatory Impact Assessment conducted)	10.60 Close of review; evaluation summary prepared	10.92 Proposal returned to submitter for further definition		10.98 Proposal rejected	10.99 Proposal approved
20 Preparatory stage <i>10 months</i> <i>(variance of 3 months)</i>	20.00 New Work Item registered in Work In Progress (WIP) Summary & TC Work plan	20.20 Formation/Re-activation of Technical Committee; development of preliminary draft/revision initiated	20.60 Working draft (WD) developed		20.93 Decision to re-draft Working Draft	20.98 New work item deleted	20.99 WD approved by Committee for registration as Committee Draft (CD)
30 Committee stage <i>1 month</i> <i>(variance of 1 month)</i>	30.00 Committee draft (CD) registered in Work In Progress (WIP) Summary	30.20 CD edited					30.99 CD approved for registration as Draft Jamaican Standard (DJS)
40 Enquiry stage <i>3 months</i> <i>(variance of 1 month)</i>	40.00 DJS registered in WIP Summary	40.20 DJS circulated for public comments (if mandatory, notified to the World Trade Org.)	40.60 Close of comment period; Comments review by Technical Committee		40.93 Re-circulation for public comments (if significant technical changes made)	40.98 DJS deleted	40.99 DJS approved for registration as Final Draft Jamaican Standard (FDJS)
50 Approval stage <i>3 months</i> <i>(variance of 1 month)</i>	50.00 FDJS registered in WIP Summary	50.20 FDJS edited FDJS submitted to Standards Council	50.60 FDJS submitted to portfolio Minister and the appropriate Ministry notified	50.92 FDJS referred back to TC		50.98 FDJS deleted	50.99 FDJS approved for publication
60 Publication stage <i>3 months</i> <i>(variance of 1 month)</i>	60.00 Jamaican Standard under publication		60.60 Jamaican Standard published & promulgated				
90 Review stage		90.20 Jamaican Standard under review - evaluation for revision/confirmation/withdrawal of standard	90.60 Close of review	90.92 Jamaican Standard to be revised (reverted to preliminary stage 00)	90.93 Jamaican Standard confirmed (reverted to preliminary stage 00)		90.99 Withdrawal of Jamaican Standard
95 Withdrawal stage	95.00 Withdrawn standard registered in WIP Summary	95.20 Withdrawal notice initiated	95.99 Jamaican standard de-gazetted.				

STANDARDS DEVELOPMENT WORK PROGRAMME APRIL 2021 – SEPTEMBER 2021

STAGE CODES FOR THE DEVELOPMENT OF STANDARDS
TECHNICAL COMMITTEE (TC) CODES

No.	NAME OF TC	CODE
1.	Bamboo	BAMB
2.	Biodegradable Plastic	BIODEG
3.	Building & Associated Materials	BAMS
4.	Cannabis	CANN
5.	Electrical Practices & Products	EPAP
6.	Labelling	LABL
7.	National Food Standards	NFSC
8.	Medical Facilities	MEDF
9.	Miscellaneous	MISC
10.	Motor Vehicle Standards	MVSC
11.	Paint & Surface Coatings	PSC
12.	Tissue	TISSUE
13.	Tourism and Related Services	TOUR
14.	Transportable Gas Containers	TGC

N.B. Some regional and international standards being adopted are not assigned a Technical Committee Code.

18.	JS IEC 60730-1: 2020 +AMD1: 2015+AMD2: 2020 Jamaican Standard Specification for Automatic electrical controls - Part 1: General requirements	Product
19.	JS IEC 60598-1: 2020+AMD1: 2017 Jamaican Standard Specification for Luminaires - Part 1: General requirements and tests	Product
20.	JS IEC 60529: 2020 +AMD1: 1999+AMD2: 2013 Jamaican Standard Specification for Degrees of protection provided by enclosures (IP Code)	Product
21.	JS IEC 60127-1: 2020 +AMD1: 2011+AMD2: 2015 Jamaican Standard Specification for Miniature fuses - Part 1: Definitions for miniature fuses and general requirements for miniature fuse-links	Product
22.	JS IEC 60068-2-75: 2020 Jamaican Standard Specification for Environmental testing - Part 2-75: Tests - Test Eh: Hammer tests	Product
23.	JS IEC 60068-2-38: 2020 Jamaican Standard Specification for Environmental testing - Part 2-38: Tests - Test Z/AD: Composite temperature/humidity cyclic test	Product
24.	JS IEC 60998-2-1: 2020 Jamaican Standard Specification for Connecting devices for low-voltage circuits for household and similar purposes – Part 2-1: Particular requirements for connecting devices as separate entities with screw-type clamping units	Product
25.	JS IEC 60998-2-2: 2020 Jamaican Standard Specification for Connecting devices for low-voltage circuits for household and similar purposes – Part 2-2: Particular requirements for connecting devices as	Product

STANDARDS DEVELOPMENT WORK PROGRAMME APRIL 2021 – SEPTEMBER 2021

NO.	TITLE OF STANDARD	TYPE
	separate entities with screwless-type clamping units	
26.	JS IEC 60998-1: 2020 Jamaican Standard Specification for Connecting devices for low-voltage circuits for household and similar purposes - Part 1: General requirements	Product
27.	JS IEC 60990: 2020 Jamaican Standard Specification for Methods of measurement of touch current and protective conductor current	Product
28.	JS IEC 61180: 2020 Jamaican Standard Specification for High-voltage test techniques for low-voltage equipment – Definitions, test and procedure requirements, test equipment	Product
29.	JS IEC 61058-1: 2020 Jamaican Standard Specification for Switches for appliances – Part 1: General requirements	Product
30.	JS BS EN 1729-1: 2020 Jamaican Standard Specification for Furniture. Chairs and tables for educational institutions. Functional dimensions	Product
